D. BACKGROUND AND EXPERIENCE

<p>Please briefly present the partner organisation.</p>	<p>The HAT Foundation (est. 2007) primarily focuses on supporting the mental health of young people, social, and educational professionals, and fostering self-help communities. The foundation aims to provide assistance to those struggling with mental difficulties and to create communities where they can find support and understanding. Its activities include organizing therapeutic programs, establishing online and offline supportive communities, as well as organizing preventive and educational programs in the field of mental health.</p> <p>The HAT Foundation's LivingRoom program is an online platform that provides a safe and supportive environment for individuals to share their experiences, feelings, and thoughts regarding mental health. LivingRoom offers opportunities for group discussions, workshops, and other activities aimed at assisting participants in self-help and mutual support. The foundation's goal is to support mental health and foster community among stakeholders through various platforms, support skill development, and support educational and mental hygiene projects aligned with these goals.</p>
<p>What are the activities and experience of the organisation in the areas relevant for this application?</p>	<p>The HAT Foundation's professional experiences extend to the development of skill-building programs, including the enhancement of soft skills, training sessions, and workshops. These programs aim to improve participants' personal and professional skills to support mental health and successful life management.</p> <p>The foundation actively supports disadvantaged groups, including children and youth in state care, individuals of Roma ethnicity, as well as disadvantaged families and young people. This integrated approach enables the foundation to provide genuine and effective support to these communities by initiating various initiatives and programs tailored to their needs.</p> <p>Summary of our expertise across various fields:</p> <ul style="list-style-type: none"> ✓ Planning and organizing educational projects: We actively engage in planning and executing educational projects aimed at supporting young people and professionals. ✓ Development of educational and training materials: We develop educational and training materials to enhance awareness of mental health issues and provide training for professionals. ✓ Training and continuous education for educators: The HAT Foundation emphasizes the continuous training and education of educators in the field of mental health. ✓ Sustainability programs: We develop and implement sustainability programs primarily with a social focus, contributing to the sustainable development of mental health. ✓ Research: We participate in numerous research projects, including surveys, focus groups, and interviews on topics related to mental health, skill development, education, and social issues. ✓ Organizing events, workshops, conferences, and professional trips. ✓ Vocational training projects: We participate in vocational training projects that enable young people and professionals to enhance their skills and knowledge in mental health.
<p>What are the skills and expertise of key staff/persons involved in this application?</p>	<p>We have a team of 70 trainers, researchers, and organization developers who possess extensive professional experience. You can view the team members on the website . Thanks to this exceptional team, we can practically participate in and contribute to every educational project with our expertise and knowledge.</p> <p>https://livingroom.ittvagyok.org/szakemberek.html#content4-10</p>
